

Arizona Report of Public Agency Performance on Parent Involvement

Indicator 8: Parent Involvement

Percent of parents with a child receiving special education services who report that the school facilitated parent involvement as a means of improving services and results for children with disabilities.

Measurement

The source of the data for this indicator is a 25-question Web-based Parent Survey. Parent responses to the survey are analyzed, divided by the total number of parents of children with disabilities, and multiplied by 100 to give the result as a percentage.

Explanation of Indicator

Each school year a new cohort of public education agencies (PEAs) is selected to administer the survey. Every parent within those PEAs is given the opportunity to complete the survey. Analysis of parent responses with a measurement software program gives the number of parents who report the school facilitated parent involvement as a means of improving services and results for children with disabilities.

A PEA is listed with an asterisk (*) when it had fewer than 10 students with disabilities enrolled that school year. In these instances, the data are not reported to ensure confidentiality.

The data are from school year 2008-2009.

State Target: 47%

State Results: 88%
